Objective Statement

Junior Web Developer with an AS degree in Computer Science and experience in both front-end and back-end web development. I am currently in the process of transitioning from an established 18-year professional background at US Foods to a career in web and software development. I bring a wealth of transferable skills in problem-solving, effective communication, and task prioritization, which will serve as a solid foundation for this career shift. I am confident that these skills, along with my eagerness to learn and adapt, will contribute significantly to my success in this exciting new field.

Skills

- **Frontend (Client-Side):** JavaScript, TypeScript, React, HTML, CSS, Bootstrap 5.2, UX/UI
- **Backend (Server-Side):** Node.js, PostgreSQL, Java, Python
- **Development Tools and Environments:** WebStorm, Giit, GitHub, Docker, ERD, DevOps

Education

- (In progress, completion August 2023) **Associates of Science in Computer Science**: Central New Mexico, Albuquerque
- (In progress, completion June 2023) **Certificate**: Deep Dive Full Stack Coding Bootcamp, Central New Mexico, Albuquerque
- (No degree) **Bachelor of Science** in Chemistry, Minor: Computer Science in Programming, 115 credit hours, University of New Mexico, Albuquerque
- **Associates of Science:** in Health Well/Public Safety Cert, Integrated Studies Degree, Central New Mexico Community College

Experience

US Foods, Albuquerque

Day Warehouse Forklift Operator-Lead (April 2021 – March 2023)
- Led pre-shift meetings to address safety concerns from the previous day.
- Adjusted task assignments based on daily case counts to optimize workload.
- Analyzed productivity barriers from previous days and devised operational enhancements.
- Actively involved in various operations from receiving to managing divers.
- Demonstrated commitment to team's success through a hands-on approach.
- Prioritized transparency and optimization of individual skills.
- Made significant contributions to collective team success and efficiency.
- Managed the inbound scheduling to ensure timely and efficient operations.
- Supervised Capstone lumpers, an external service, ensuring they correctly broke down trailer loads to our warehouse standards.
- Ensured Capstone used unbroken pallets for product transfer and separation of damaged goods for return to the trailers.

- Maintained quality control by addressing mistakes directly and instructing Capstone on corrections.
- Oversaw Capstone's performance, ensuring their service met our operational expectations.
- Liaised with the Capstone manager to address and resolve any issues.

*Shipping/Receiving Clerk-Lead (*May 2019 – April 2021

- Prepared inbound documents and allocated receiving doors for incoming drivers.
- Processed all purchase orders and ensured clearance by the end of each day.
- Managed the discrepancy report to address any mismatches or issues.
- Scheduled all backhauls, collaborating with the buying department; compiled weekly backhaul reports.
- Handled out-of-stock and damage claims to address any inventory issues.
- Conducted pre-shift meetings to facilitate team communication and workflow planning.

*Receiver (*January 2019 - April 2019*)*

- Verified inbound product identification against invoices and receiving paperwork to ensure correct pack/size, quantity, product quality, and temperature, as well as pallet ti/hi.
- Checked temperatures of all inbound frozen and refrigerated products to meet food safety standards and RRE requirements, adhering to HACCP guidelines.
- Confirmed the quantity of each product, making sure the count aligns with the documentation. Reported any discrepancies for accurate inventory level adjustments in the system.

*Day Warehouse Forklift (*January 2016 - December 2018*)*

- Letdowns in each department; Cooler, Dry, and Freezer.

Night Warehouse Selector (January 2015 - December 2015)

- Selection in all areas: Freezer, Cooler, and Dry.
- Forklift in all areas: Freezer, Cooler, and Dry.

Night Warehouse Forklift-Lead (July 2012 - December 2014)

- Managed various tasks throughout the night including clerical work, loading, selecting, and operating a forklift.
- Conducted driver check-in procedures for routes from El Paso and Las Cruces.
- Stepped in to either open or close the shift during instances when the supervisor or manager had the day(s) off.
- Regularly opened and closed the Friday shift.
- Trained employees in loading, selection, and forklift operation.

Night Warehouse Selector (March 2004 - June 2012)

- Selection in all areas: Freezer, Cooler, and Dry.
